Dear Parents/Guardians and Students,

We have come to the middle of this very short term. We anticipate that all our students are doing well and that our new students including our Prep of 2008 have settled in well to their new environment.

It gives us the utmost satisfaction to hear positive feedback from you our parents on the progress of our school. We know that we are on track and yet there is so much more that we want to offer. We have yet to undertake a lot of plans and programs to make our school much better with the bigger projects we have in mind. It gives a clear purpose and guideline to achieve for dreams that are gradually being realized.

Last week you will all recall we touched up on the issue of discipline. Our students are not letting down their school and our new students are getting accustomed on the expectations that are placed on our students.

We believe that being a student of ISIK College is a privilege and our school has and is going to offer fine specimens of citizens for the community in the near future and for many years to come.

In the coming years we will live this fact and rejoice in having had our students benefit from the fine education here at ISIK College that also offers and upholds the significant important values of respect, care and tolerance towards all members in our multicultural society.

Our mission is not an easy one, yet we are lucky to have our dedicated staff and you our parents who will help nurture and illuminate the path of our students and help them have a smooth and enjoyable life and to sow the seeds of this well. For after us they will continue on this path on their own. Let us all sow these seeds well and help them grow upright, strong and with a purpose in life, so they shed the light to continue for the generations that we will not be able to see. Our efforts will not have been in vain if we are able to give this gift to our children to pass on.

We hope and pray to see all of our students brought up well with our combined efforts.

Wishing you all a safe and restful weekend.

Regards,

Erdal Kocak
Principal

UPCOMING EVENTS

Prep starting full day—3rd March
Year 2/3 incursion—7th March
Labour Day Holiday —10th March

“Quotation”

"With every deed you are sowing a seed, though the harvest you may not see."

-- Ella Wheeler Wilcox.
WHO AM I

- I LOVE BANANAS
- THERE CAN BE BIGGER AND LARGER SIZES OF ME
- I CAN HOLD BRANCHES IN A TREE.

If I could be a character on TV I would be:

I would be Eddie Murphy because he is the funniest actor I have ever seen. He is also a very good actor. The way acts in movies seems like it is real. Also because every movie that he plays in, is always funny and interesting and really good.

Miradie

I would like to be Sabrina because I would like to do magic and have a talking cat.

Rumeysa

I would be Bart Simpson because he is cool and he is funny and naughty.

Firdaus

WHO AM I

- I HAVE BLACK AND WHITE STRIPES
- I LOOK LIKE A HORSE
- I HAVE A TAIL AND AT THE END THERE IS FLUFF
- I HAVE A FACE LIKE A HORSE

If I had lots of Money, I would...

If I had a lot of money, for example I had $11 Million. I would buy three Ferraris which might cost $700,000. I would have at least $9,300,000, which is a lot of money. Then I would buy 2 Helicopters, 1 Chopper, 2 Jets and a huge House. I think that might cost 7,000,000. I would have 2,300,000. The rest I'll give to my family, friends and poor people.

Hasan

If I was rich and had lots of money, I would live the life of paradise. I would buy a nice house, a nice car and furniture. If I had money left, I would go for a holiday. My house would have been a double story and a nice lexis car, a flat screen TV that comes out of the rood. A leather couch and chairs. A happy nice life.

Suhayb
The world is now moving rapidly into a new era.
No longer is accessibility of knowledge the main key to success...
Success is now closely linked to how well we use information and how well we communicate our knowledge.

What can our student do right now to get the best out of their school experience?
Students need to become skilful learners.
Students need to be exceptionally self-disciplined in class time.

Master Learner Program – continues this week (4 weeks to go)...
