Dear Parents and Students

Let’s think in our most hardest times who would we turn to?. I’m sure it will be the person that is the most closest , and when that person sees us, has a smile on their faces, we know we can trust them and we end up going to them. They say a smile is like a coffee break, a heart hopping out of its place. A smile, is a powerful communication tool, Even with the hardest situations let’s try to show a smiling face to our friends, family and especially to our children. when we manage to do this you will see a lot will change in our lives.

Next Friday Dr Mehdi Pour will be giving a lecture. on brain and heart.All parents are welcome to get more information regarding good health.

In this weeks lunch order i would like to thank Hasan and Aysun Tulek and family for their help and support. After a very long time they made us taste adana kebap which is a part of our food culture.

Hoping to see more support of parents and always a smile on your faces.

Regards
Nail Umur
Principal
