Dear parents and students

We are fortunate to be living in a country where we have lots of opportunities. We have all types of institutions with the support from the Australian government. Without this support our opportunities would lessen. For example the government has provided our school with funding opportunities and if the parents had to pay these amounts, it would place both school and parents in a hard financial position. I would like to take this opportunity to thank our government. As a citizen of our country we also have responsibilities. It’s important to live each day in an organised way, and be a helping hand to our community. We are responsible for our words and actions. We should not forget that the mistakes we make in life, we carry with us on and it can effect our character.

Next week on Tuesday students will be going to Bendigo. I am thankful to the parents who are helping in the Excursion. We would like to see parents helping in someway. Every week grade 3 and 5 will be practicing for NAPLAN Test. Parents please keep track of them.

I hope all is as you please

Nail Umur
REMINDER:

* School start bonus checks for Grade Preps have arrived and are waiting to be picked up at school office.
* Shoes with shoe laces are not very safe for P/1. We prefer Velcro shoes.
* Students will be going to Bendigo next week on Tuesday the 17th of March 2009.
* Some students from all grades have been given notes by the office for the Conquesta Olympiads competition. The last day will be the 20th of March 2009.

HOW TO USE THE STUDENT DIARY

This diary has been provided by the College to assist all students with the planning and organisation of their schoolwork. The school diary is a major way by which communication is maintained between school and home. Students and parents must become familiar with the following:

Each student is given a school diary at the commencement of the year. Students need to bring their diaries to school on a daily basis as they need to record homework tasks and special activity dates/events/ etc.

Thank-you
In the grade P/1 class this week, we made some posters in Maths about odd and even numbers. The Prep Students worked with a Grade 1 partner. The posters were decorated and they looked great!

Students made Space posters using Word Art, Clip Art and Microsoft Word. They inserted pictures and page borders. They did a good job!

For art, we made magic cards this week.

We had a “1 Minute speak” competition and everyone scored a raffle ticket. Safiye Sayik scored 2 tickets because she was the winner.
