Character Parade

September 22
(Thursday)
Last Day of Term 3

September 23 (Friday)
Planning & Interviews

October 11 (Tuesday)
First Day of Term 4

Message from the Coordinator

Dear Parents/Guardians,

Welcome back everyone. I hope you all had a well deserved break with your family and that you are ready for a very busy and exciting term. This term we are all looking forward to the Science Expo, Book Week and Literacy/Numeracy Week. Students will be involved in various activities and have the opportunity to participate in WEAR RED TO BE WELL READ day on Monday the 29th of August and our schools annual CHARACTER PARADE on Thursday the 1st of September. I hope everyone will join in and have lots of fun.

There will be no school on the 30th/31st of August– Eid-ul-Fitr.

JUST A FEW REMINDERS.....

- As you are all aware the construction on the school site has commenced. As stated on the letter sent out earlier this term, parents need to abide by the school rules in order for everyone’s safety. Park in the car park area only and ensure your child is using the enclosed pathway to enter and exit the school grounds safely.

- Students are required to be punctual to school. Students need to get a late pass from the office if they are late. Parents need to provide a letter to their child’s classroom teacher to report an absence.

- If parents wish to see their child’s teacher, they are required to make an appointment for a suitable time. If the teacher is speaking with other parents please wait to be addressed by the teacher before entering the room.

- We hope that parents can support this wonderful program and bring in their dockets if they shop at Woolworths. Our school is participating in Woolworths Earn & Learn points program. From July 18th to September 18th 2011, you can earn one Woolworths Earn & Learn point for every $10 you spend in store (excluding the purchase of cigarettes, alcohol and gift cards or purchases made through Woolworths online or at Caltex Woolworths co-branded fuel outlets). Points will automatically appear on your shopping dockets, which you simply bring to our school. When the 9-week program ends, schools redeem points against a choice of more than 7,000 educational resources including library books, classroom equipment, art & craft materials and much, much more.

I would like to take this opportunity to wish all families a happy and safe Eid-ul-Fitr.

Regards,

Mrs Halide Atasay

QUOTE

Data is not information, information is not knowledge, knowledge is not understanding, understanding is not wisdom.
This term for Integrated Studies, the grade prep students are learning about Farm Animals and the Life on the Farm. Next week we will be attending the Bundoora Farm. Students are waiting in great anticipation for their excursion. Students will also be planting seeds and watching them grow throughout the term. Students are enjoying this term's topic and having the opportunity to explore and participate in a lot of fun activities.

Mrs Atasay  
Classroom Teacher

**Grade 3**

Students enjoyed maths activity on Volume. They had a chance to construct the shapes with the centicubes and blocks. It was a fun hands-on activity for students. They understood the concept very well. Well Done Grade 3.

Samed and Kerem constructing their shapes.  
Baydan and Thuwayba likes to work as a Team.  
Ceyda and Beyza worked very well together. They constructed fantastic shapes with the cubes.

Veli enjoyed his activity.  
Ashkir, Kumail and Seygi worked very well and they constructed beautiful shapes.  
Rafat, Khalid and Zeynep constructed wonderful shapes.

**Math Activity:**

Students enjoyed maths activity on Volume. They had a chance to construct the shapes with the centicubes and blocks. It was a fun hands-on activity for students. They understood the concept very well. Well Done Grade 3.
The grade four students have been busy investigating buildings and structures this term. They have researched famous buildings from around the world and have also had the opportunity to construct their own homes, shelters and build-

We studied about famous buildings and their structures. Then we had to build buildings and shelters. I chose to build a house out of cardboard. First I made a structure out of cardboard then I put it together. After that I started painting and sticking objects onto the house. I used a lot of pva glue. The finished product looked very nice. I also had an idea for a little garden bed at the front of the house and I made flowers like roses out of pipe cleaners. I was very proud.

Zeliha Kaya

I made a hotel using boxes, cardboard and paint. First I made the two buildings using boxes and stuck them together. Then I painted it black. I then made the door and used pom poms for decoration. I used green paper for the grass area. Joining the boxes was the hardest part but I liked making the decorations and painting it.

Misk Hassanaddie

We had to build building structures and I chose to make a sea vacation home. First I had to stick the icy pole sticks on top of each other. Then I got three icy pole sticks and I taped it together and I made it join like a line. Then I placed it across and covered it with blue felt. Next I made the roof shaped box and I painted it green and black. Last I pasted the arch windows on. I enjoyed making the sea vacation home.

Zakaria Abdi
The grade 5 and 6 class are excited to welcome you to visit our Science Expo day. It will be a day filled with fun and exciting science experiments, activities and games.

DATE: 7/9/2011 Wednesday
TIME: 2.00 - 3.00 pm
LOCATION:
GRADE 5 & 6 CLASSROOM (ROOM 6)
